

We host a small number of students per year primarily from Europe, Brazil and Mexico. We have an established Homestay program with experienced English speaking families, a homestay coordinator and school coordinator.

Being small allows students to receive excellent support and feel unique in their school placement.

We respond to our student and family requests quickly and want to do everything we can to make sure that the student's experience is a great one.

Just a short ferry ride from Vancouver, BC, the Sunshine Coast gives you the best of both worlds.

This unique location offers a safe “seaside” feel to the communities, great schools and yet close access to Vancouver and all that the city has to offer.
